5	Chairperson's Annual Report A bit of a whirlwind and busy year as well as being the most significant in all the years FCCC has been in existence. With 3 projects being voted on and securing Seagreen funding of £250.000 we have spent most the year focussed on delivery of Core Paths 093 and the resurfacing of Esk Road, with sea defences being installed to. This project is in its final stages now. Great work by the Esk Road project team and all involved. (£120,000) FCCC pathways (£90,000) saw a winding path through King George Park, looping through the community orchard and connecting at both ends to the original pathway has made the park more accessible to all. Disabled access picnic tables and benches placed on the edge of the new path have seen a lot of use already. Within the bounds of this project the Scuperie steps were also refurbished as well as the Eastway steps. Unfortunately, these both need remedial work, which is currently being looked at. Ferryden in Flower (£40,000) has seen phase 1 install 7 planters. Phase 2 has permission for 3 more to be placed out now. The final phase of 6 planters going out

	<p>is awaiting council permission which should be w/c 10<sup>th</sup> November. Permissions are in place to wild seed the roundabout, large areas of the park and Esk Road, working in partnership with Scotia seeds. So 2026 should be a year of colour.</p> <p>The walking trail research has commenced and POI's which will be supported by a new website is underway. In between project duties as an elected group we have dealt with numerous issues and actions throughout the year. Most notable one being representing the community with a challenge on the sale of the Inch Pavillion and Bowling Green, which is still ongoing and is now with the Sheriff Court in Edinburgh who will make the final decision.</p> <p>The activity and output from FCCC has been unbelievably high this year and to each and everyone of you, both members of the CC, members of the public and also our elected Councillors I would like to pay a huge thanks to you all.</p>

	<p>quote did not include repairing those.  Geddes will replace wood f.o.c.. and would also, as a good will gesture, put some extra posts in at the top to strengthen it.  We asked if Geddes could replace the bottom steps with concrete, price £1386 (including deduction for timber)  Top step repair, new posts, bracing will be foc.</p> <p>Agreed to request price for all the steps in concrete for longevity.</p> <p><u>Ferryden in Flower</u></p> <p>Permission received for planter to be installed at the back of the island, old concrete bin was in the way. thanks to D Watson for assisting.</p> <p>C Cameron will be planning at coffee morning for chat with residents with locals to collect historical stories and facts, hopefully this side of Christmas. We have been offered a loan of dicta-phone that types up notes which could save a lot of time. If anyone has any suggestions of locals we can speak to with historical stories please get in touch!</p> <p>“Strange Places in Scotland” posted about the shitty, which resulted in contact from a stonemason who works for Environmental Historic Scotland. He has kindly offered to provide labour to do lime rendering and put coping back on. We’ve had one of the top Scottish lime rendering people come to have a look and he’s willing to come along and teach volunteers to do lime rendering and oversee the work, for expenses only. Another gent from Aberdeen Uni, along with is going to come and have a look and, along with Prof Tim, help us with the paperwork to get Historic Env Protection on it.</p> <p>G Newton will visit Dan Paton to share of information</p>	04/11/25	G Newton
